Complete line of Canned Goods such as Peas, Beans, Corn, Tomatoes, Pears, Peaches, Etc., Etc. Come and try our goods.

WOODBURY'S GROCERY

Oscar P. Woodbury Successor to Geo. Vinal.

MID-SUMMER BUYER'S MEET.

Invitations Extended for Business Men to Go to Indianapolis

July 11-14.

The retail merchants here are receiving announcements of the Mid-summer Buyer's Meet to be held by The Indianapolis Trade Association, next week. This event will be held at the time of the Grand Circuit races at the State Fair Grounds.

Many business men will find it convenient to visit the capital city during the four days, July 11-14th, and to combine business with pleasure. The races are the opening of the 1911 Grand Circuit, and this is the first season that Indianapolis has been included in the Grand Circuit. The race card each day is promised to be the highest class.

The Buyer's Meet was arranged by the Trade Association on the same basis that it has in the past. The merchants might have time to visit the wholesale and manufacturing market of mornings and attend the races of afternoons. In addition, the Association has announced a special entertainment for the retail merchants on Wednesday night, July 12, at the German house, one of the finest club houses in Indianapolis. A band concert and vaudeville entertainment will be given in the commodious garden of the club, at the corner of New Jersey street and Massachusetts avenue. The various manufacturing concerns, wholesale houses, and banks holding membership in the Trade Association will issue tickets to the entertainment to their customers.

Has Leg Injured.

Wednesday afternoon the young son of Mr. and Mrs. Gregg who live near the viaduct had his leg injured rather seriously in trying to get a free ride on an automobile while the car was in motion. He first tried to board the car on Michigan street near Garro. The boy failed to get on the back and made several other like attempts. Finally he tried it again when the machine was nearing the Kuhn garage, caught his foot and badly bruised his leg up to the knee. He was taken home. The driver of the car knew nothing of the accident until told by witnesses and then did all he could to help the injured lad, although of course he was not to blame. The boy is about seven years old.

GOLD MEDAL FLOUR

AGAINST STREET DUST.

Calcium Chloride Is Used Effectively in Kankakee Instead of Oil for Sprinkling.

(From the Kankakee, Ill., Gazette.)

The local newspaper men were taken over the streets recently treated with calcium chloride, Saturday morning. West station street was visited, where about four blocks had been treated Wednesday. The dust had not been very heavy on this street and the results were most satisfactory. The roadway was packed into a hard mass and no dust could be raised. Where wheels have traveled the loose dirt was packed into a hard surface.

In other localities, treated with the chemical, the surface of the street was even muddier, the application having been more recent and possibly too liberal.

From present indications the chloride treatment is a success. All of the disadvantages urged against oil or water sprinkling seem to be obviated by the new chemical.

The chloride is applied with a broadcast seeder and in a short time begins to take the moisture from the air, appearing the first few hours as though it had been lightly sprinkled with water. A longer exposure and small pools of water can be found. Later the roadway surface packs into a hard mass and there is a ideal roadway.

The expense per block is no heavier than oiling, \$24 for the long blocks and \$26 for the shorter ones.

Hay Fever and Summer Colds

Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram St., Chicago, writes: "I have been greatly troubled during the hot summer months with Hay Fever and find that by using Foley's Honey and Tar Compound I get great relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. For Sale by All Druggists.

Enjoying Themselves.

Frank Martindale, Luther Hoham and "Pretty" Vangilder have been enjoying themselves at Pretty lake this week in various ways but mostly in learning how to swim.

"Pretty" had a very thrilling experience the other day. He cheerfully and most gracefully fell the length of the hill. Ask him to tell you about it. He has now returned to resume his enviable position of operator at the Crystal theatre. The other two are expected home in a day or two that is, if they live that long.

Those Who Take Foley Kidney Pills For their kidney and bladder ailments, and for annoying urinary irregularities are always grateful both for the quick and permanent relief they afford, and for their tonic and strengthening effect as well. Try Foley Kidney Pills. For Sale by All Druggists.

Runaway Wednesday Night.

A horse hitched to an old, dilapidated looking buggy tried his speed thru the business district last night at about 7:30. He had been tied in front of Harry Armstrong's tin shop, but becoming frightened at a passing wagon broke loose, running up Garro street, north on Michigan to Washington and then on until the buggy was smashed up near the court house. There was no occupant in the rig and so far we have been unable to learn to whom it belonged but it was no doubt the property of some farmer. One of the wheels was broken to pieces and the remains are still standing where the horse was stopped.

Watch Your Kidneys.

Their action controls your health. Read what Foley's Kidney Pills have done for your neighbor. Mrs. Sadie Gillespie, Huntington, Ind., says, "I have long suffered from severe backache due to kidney troubles, but since using Foley's Kidney Pills I have not been bothered. They have also regulated my kidney action and toned up my system generally and I can recommend them to others bothered as I was, as a very quick and permanent cure."

First New Eye in Elevator.

The first load of new eye was brought into the Milner and Grube elevator Friday morning. It belonged to Wm. Whipsell of Donaldson. The eye over this year promises to be very good and this first lot was of a good quality. It brought 65c per bushel. Wheat is also coming into the market every day now, it being worth 79c.

Large Crowd Hear Orchestra.

A large crowd found their way to Fred Wenzlers store last week to hear the excellent music of the Italian band. This was not a German band as everyone thought. No, far be it from such they said. It is merely a little three piece orchestra from sunny Italy.

HOW TO CARE FOR GARBAGE AND OBEY LAW

CITY HEALTH BOARD GIVES NOTICE OF PROVISIONS OF NEW ORDINANCE ON CARE OF REFUSE.

MAY NOW BUY CANS

Galvanized Iron Receptacle Can Be Bought Cheap and Will Fill all the Requirements.

After unavoidable delay, garbage cans can now be obtained at the hardware stores.

The city by inaction, makes it unlawful for any one or more of the following unsanitary disease-causing conditions to exist within its limits, which I desire now that every citizen of Plymouth should carefully heed:

1. Animal manure in any quantity which is not securely protected from flies.
2. Privies, vaults, cesspools, pits or like places which are not securely protected from flies.
3. Garbage, which is not securely protected from flies.

Trash, litter, rags or anything whatsoever in which flies breed or multiply.

Nothing of the above is to be left in the open. Animal manure must be removed frequently and regularly or else kept in a fly-tight receptacle, must be kept fly-tight by using every precaution, and screening the doors and windows if necessary. Garbage must be kept in some water-tight receptacle and covered fly-tight and the contents removed regularly. A galvanized iron, tight covered receptacle, such as Mr. Soice now furnishes, is much cheaper and better, than a tight barrel or tub and will last longer. Some neat, careful housekeepers, who live plainly and make but little garbage, manage to separate the water from their garbage and pour the water into the sewer, and burn the residue. Such householders need no receptacle.

Now that the public have been duly notified and have had opportunity to be prepared for these things, the health authorities wish to give final notice, that if any one or more of the above mentioned unsanitary conditions come to the knowledge of the health department, the health officer, who has sworn to do his duty; but is subject to a like fine with other violators of the law, if he does not; has other recourse but to turn the matter over to the executors of the law as his final duty which he firmly proposes to do in any and all cases. J. S. MARTIN, Health Officer.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by All Dealers.

Meat Wagon Runaway.

July 6.—Yesterday afternoon at about five o'clock, while driving his father's meat wagon on Jefferson street, Russel Ames had a runaway. His horse started to run east but soon met a large wagon going in the opposite direction. A collision was followed by which the shafts were broken off the meat wagon. The horse then continued in his race, running south on Michigan street, the rig being left behind on Jefferson street. Little damage was done by the accident.

For summer diarrhoea in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, and a speedy cure is certain. For sale by All Dealers.

Has Trouble With Drunks.

Friday night Nightwatchman McKinney had a little trouble making a couple of drunks go home like good little boys. He ordered them to leave for home but they refused, telling him what they thought of the officers. But Mitt was determined the unruly should obey him and accordingly drove them up N. Michigan street for a couple of blocks. By that time the men were ready to do as he said. Of course a number of people backed up the Nightwatch to see how it would result.

JOHN M. WARD

Former Baseball Captain Wins Case Over "Ban" Johnson

SEEK PERJURY EVIDENCE

John H. Marble Collecting Same for Lorimer Probers.

Sever—Ordeal for Witnesses to be Called Before Committee Is Probable.

Chicago, July 7.—Merciless cross-examination, fortified by a substantial menace of perjury prosecutions before a District of Columbia court, is to be the fate of witnesses in the Lorimer scandal who will be summoned before the senate committee in Washington at the resumption of hearings, next Thursday.

John H. Marble has been conducting a series of inquiries which are meant to prepare him to conduct the cross-examination of White, Beckemeyer, Holstlaw, Browne, Broderick, Wilson and the rest. The ordeal which is being prepared for all these witnesses, it was learned, will be far more trying than anything they have had to face before.

Mr. Marble is a skilled investigator and has been absorbing all the information he could get concerning political conditions during the Springfield deadlock. He will conduct the examination of the witnesses, and it is reported the district attorney in Washington will be asked to have a representative present at the hearings in order to take prompt action in case perjury indictments are needed on quick notice.

Study of the record of the former investigation is known to have convinced two members of the investigating committee that sufficient cause for perjury prosecutions will exist if witnesses repeat in Washington the stories they told them in Chicago. Senator John W. Kern of Indiana, a member of the investigating committee, may visit Chicago before the resumption of the hearings in order to make inquiries which will aid him in directing the examination of witnesses.

JOHNSON LOSES MOTION

Former Baseball Player John M. Ward Is Upheld.

New York, July 7.—Byron Bancroft Johnson, who is better known as "Ban" Johnson, president of the American Baseball league, lost a motion before Judge Hand in the United States circuit court to set aside a verdict of \$1,000 granted John M. Ward, a one-time baseball player.

Ward is now practicing law. He sued Johnson last May in the United States district court for slander. At the trial it was testified that "Ban" Johnson called Ward a "trickster" and a menace to organized baseball. The slander grew out of the contest for the presidency of the National league in 1909. Ward was a candidate, but was defeated.

GATES IN GRAVE CONDITION

Seems Probable that Son Charles Will Not See Him Alive.

Paris, July 7.—The condition of John W. Gates is extremely serious. He passed the day in a comatose condition and it now seems likely that his son Charles, who is on board the Manhattan hurrying to Europe, will not reach Paris in time.

Mr. Gates went to London to put through the deal with Lord Cowdray regarding the Pearson interests in Mexico at a time when he should have remained in Paris for the operation that he was told was necessary for the removal of a tumor.

FIGHT ON COAL CARRIERS

United States Starts Suit Against Lehigh Valley Railroad.

Philadelphia, July 7.—The government renewed the fight to dissociate the great coal-carrying railroads from their virtual control of mines and thus vitalize the commodities clause of the interstate commerce law. A test case against the Lehigh Valley railroad was filed in the federal court.

That the Lehigh Valley Coal company, Cox Bros., Inc., the New York and Middlefield Railroad and Coal company, and the Locust Mountain Coal and Iron company are not bona fide coal companies, but merely adjuncts to the Lehigh Valley railroad and are "devices for evading the commodities clause" is the government's principal complaint.

Convicted Man Loses State Job. Columbus, O., July 7.—Because of his conviction for aiding and abetting bribery, Rodney J. Diegel is deprived of his office of sergeant-at-arms of the senate and also of the right to hold any office in this state.

The First Step

towards prosperity and independence is a deposit in a good savings bank. The biggest fortunes in the world had their foundation in small savings. The Marshall County Savings Bank opens a county with as little as one dollar. Make a deposit today and start on the road to independence. The first step isn't hard and the others are easier, once you get the habit.

CONCLUDING WORK OF THE COUNTY BOARD

SOME NEEDED REPAIRS TO BE MADE ON THE JAIL AND AT THE COUNTY INFIRMARY.

ARCHES TO BE BUILT

Tippecanoe Township Again Makes Report That There Were No

Poor to Be Helped There the

Past Quarter.

The county commissioners adjourned July 5 for the term. They let the contract for the Varrier cement arch in Bourbon township to E. J. Coar for the sum of \$370.

A number of bridges in Tippecanoe township were ordered painted and the contract was let to Lyman Sarber for \$408. These bridges are the Flory, Gross, Atha, Deep Creek and Range Line bridges, two bridges over Yellow creek and the bridge over the Tippecanoe river west of Tippecanoe. The application of John R. Hewitt to have Marile Hewitt admitted to the school for the feeble minded was granted.

An order was given the superintendent of the county asylum to sell all the wheat in the north and center bins at as good a price as possible. Specifications were adopted for the bridge to be built over the Austin Downing ditch on the north and south roads between sections 15 and 16 in Bourbon township.

Some extensive repairs are to be made in the county infirmary and jail. At the jail the mantle in the front room is to be put in place, a lock on the door, wall paper in the office and hallway, plaster in the kitchen, and some painting is also to be done. On the outside, the cellar doors, rear porch, entrance to the basement window, front porch, windows and painting is to be done.

At the infirmary the porch on the east side of the building, is to be repaired and added to so as to make it like the porch on the west side of the building. County surveyor Schoonover prepared the plans and specifications for all these repairs.

The application of Grant Hanes for a liquor license was dismissed. The reports of the township trustees on the care of the poor were filed and approved after examination, except from Tippecanoe township. Trustee Beck lives in a model community—he has given no poor relief at all the past quarter. Whether all the poor people have left the township for good, or have got rich lately it is not known, but such a condition is indeed encouraging. Upon two other occasions Tippecanoe has made similar reports. This is the only township in the county, in recent years at least, that has made such a favorable poor report, except Green, which in one quarter of 1908 spent nothing for poor relief.

Important Meeting For Workers

The semi-annual Council of the Marshall County Sunday School Association will be held in the U. B. Church, Plymouth, August 5.

The forenoon will be given to Department Conference, conducted by the County Department Superintendents, and will be held at such times and places as they decide, due notice of which will be given.

The general Council will meet at 1:30 p. m. All Sunday School workers are cordially invited to this council, and I earnestly desire that all Township Presidents, Pastors and Sunday School Superintendents be present. Matters of importance to the Sunday Schools of Marshall County are to be adjusted, looking to larger work and greater co-operation. O. A. S. ELLIS, Pres. Marshall County S. S. Assn.

Large Crowd Attends Concert.

Thursday night the streets were lined with people who had come to hear the old Plymouth band play again. A large number of town people were present but also a goodly number of farm s came in to attend the concert. Everyone was as happy as usual and all enjoyed the music which was excellently rendered. Several of the old pieces which the band played several years ago were again given last night. It was a cooler evening than we have enjoyed for some time and this made it much more pleasant for those who were on the streets. This was the first of a series of concerts which are to be given. Hereafter there will be one each Thursday night for twelve weeks.

Cadets Pass Thru City.

Thirteen cadets and three officers of North Western University which is located at Highland Park, Ill., were in the city Friday. They are on their way to Washington D. C. where they will make demonstrations of Wireless Telegraphy and the new methods of destroying balloons, aeroplanes, and other ships of the air.

The young men are traveling thru this part of the country by automobile. The school they represent features wireless telegraphy just as Culver takes great pride in its Black Horse Troop and summer naval school.

White Screens Best.

It is not generally known, that if window screens are painted with a thin white paint, instead of with black, as they often are, those inside the house may look through the screens the same as before, while outsiders cannot see inside. Home Department, in National Magazine for July.
